CBT005 Saving Information in Variables

Complete CBT005. Canvas contains the PDF of the assignment.

Test Case

Java 8

Run Code

Help

```
1 public class Main {
2     public static void main(String[] args) {
3         {
4             int x, y, age;
5             double seconds, pi, checking;
6             String firstname, lastname, title;
7
8             x = 10;
9             y = 400;
10            age = 35;
11
12            seconds = 4.71;
13            pi = 2.71828182845904523536;
14            checking = 1.89;
15
16            firstname = "Graham";
17            lastname = "Mitchell";
18            title = "Mr.";
19
20            System.out.println("The variable x contains " + x);
21        }
22    }
23 }
```
