Help

Java 8

Run Code

```

49 System.out.println("python isn't a made-up language!");
50 if(name.compareTo("python") > 0)
51     System.out.println(name + " comes AFTER python");
52
53 if(name.compareTo("ruby") < 0)
54     System.out.println(name + " comes BEFORE ruby");
55 if(name.compareTo("ruby") == 0)
56     System.out.println("ruby isn't a made-up language!");
57 if(name.compareTo("ruby") > 0)
58     System.out.println(name + " comes AFTER ruby");
59
60 if(name.compareTo("visualbasic") < 0)
61     System.out.println(name + " comes BEFORE visualbasic");
62 if(name.compareTo("visualbasic") == 0)
63     System.out.println("visualbasic isn't a made-up language!");
64 if(name.compareTo("visualbasic") > 0)
65     System.out.println(name + " comes AFTER visualbasic");
66
67 }
68 }
69

```
